 Kaushaltar, Bhaktapur

## PROFILE

I am Aashish Adhikari, a passionate front-end developer with a strong foundation in HTML, CSS, and JavaScript. I specialize in creating responsive, user-friendly web interfaces, blending functionality with aesthetics. With experience in modern frameworks like React.js and Tailwind CSS, I aim to deliver seamless and visually appealing digital experiences.

>> **Vice-Secretary** at **Code for Change** Kathmandu.

## EXPERIENCE

### 1. Food Ordering Website

-React, Tailwind css

-Build a responsive food ordering website with dynamic food list rendering and advance filter with search functionality.

-Link: <https://food-delivery-website-e3fh.vercel.app/>
