running(2nd year)

PROFILE

I am Aashish Adhikari, a passionate front-end developer with a strong foundation in HTML, CSS, and JavaScript. I specialize in creating responsive, user-friendly web interfaces, blending functionality with aesthetics. With experience in modern frameworks like React.js and Tailwind CSS, I aim to deliver seamless and visually appealing digital experiences.

>>Vice-Secretary at Code for Change Kathmandu.

EXPERIENCE

1. Photo Gallery Website (Ongoing)

-HTML, CSS, JavaScript

-Building a responsive gallery website with dynamic photo and video sections.

2. Blog Website

-HTML,CSS, Javascript

-Build a fully responsive blog website with search functionality, blogs page and home page along with contact page.

3.Drag-and-Drop Form Builder

-React, Form Validation, Optimization

-Developed a customizable form builder with drag-and-drop, validation, and JSON schema generation.

4. Basic Slider

-HTML, CSS, JavaScript

-Created a responsive basic slider with smooth transitions.

5. React Todo List

-React

-Developed a to-do list with CRUD operations and local storage support.
